Springer International

Cell and Tissue Research

This journal was founded in 1924 as the Zeitschrift für Zellen- und Gewebelehre, from Vol. 2 (1925) it was published with the subtitle: Continuation of the Schultze-Waldeyer-Hertwig Archiv für mikroskopische Anatomie. Zeitschrift für Zellforschung und mikroskopische Anatomie (Vols. 1–20) (1934) as: Zeitschrift für wissenschaftliche Biologie (Abteilung B) edited by *R. Goldschmidt, W. von Möllendorff, H. Bauer, J. Seiler.* Vols. 2–28 (1938) edited by *R. Goldschmidt* and *W. von Möllendorff.* Vols. 29–33 (1944) as: Zeitschrift für Zellforschung und mikroskopische Anatomie, Abteilung A, Allgemeine Zellforschung und mikroskopische Anatomie, edited by *W. von Möllendorff* and *J. Seiler,* from Vol. 34 without the subtitle, Abteilung A, Allgemeine Zellforschung und mikroskopische Anatomie. From Vol. 34 (1949) edited by *W. Bargmann, J. Seiler;* from Vol. 53 (1960) edited by *W. Bargmann, B. Scharrer, J. Seiler;* from Vol. 83 (1967) edited by *W. Bargmann, D.S. Farner, A. Oksche, B. Scharrer, J. Seiler;* from Vol. 125 (1972) edited by *W. Bargmann, D.S. Farner, F. Knowles, A. Oksche, B. Scharrer.* Beginning with Vol. 125 (1972) with the subtitle Cell and Tissue Research, beginning with Vol. 148 (1974) under the title Cell and Tissue Research and the subtitle Continuation of Zeitschrift für Zellforschung und mikroskopische Anatomie and beginning with Vol. 235 (1984) under the title Cell and Tissue Research. Beginning with Vol. 164 (1975), edited by *W. Bargmann, D.S. Farner, B. Lofts, A. Oksche, B. Scharrer* and *L. Vollrath;* As of Vol. 193 (1978), edited by *D.S. Farner, B. Lofts, A. Oksche* (Coordinating Editor), *B. Scharrer* and *L. Vollrath;* from Vol. 227 (1981), edited by *D.S. Farner, B. Lofts, J.F. Morris, A. Oksche* (Coordinating Editor), *B. Scharrer* and *L. Vollrath;* from Vol. 228 (1983), edited by *D.S. Farner, D.E. Kelly, B. Lofts, J.F. Morris, A. Oksche* (Coordinating Editor), *B. Scharrer* and *L. Vollrath.* Beginning with Vol. 235 (1984), title changed to Cell and Tissue Research (no subtitle). As of Vol. 251 (1988), edited by *H. Altner, D.S. Farner, B. Lofts, J.F. Morris, A. Oksche* (Coordinating Editor), *B. Scharrer, N.J. Strausfeld* and *L. Vollrath.* Beginning with Vol. 252/3 (1988), *M.J. Cavey* became one of the editors. From Vol. 254/1 (1988), edited by *H. Altner, M.J. Cavey, B. Lofts, J.F. Morris, A. Oksche* (Coordinating Editor), *B. Scharrer, N.J. Strausfeld* and *L. Vollrath.* Starting with Vol. 268/1 (1992), *J.R. Sladek* became one of the editors.

Published: Vols. 1–33 (1924–1947) Julius Springer, Berlin, Vols. 34–35 (1948–1950) Springer, Wien, from Vol. 36 (1951) Springer, Berlin, Heidelberg.

Copyright

Submission of a manuscript implies: that the work described has not been published before (except in the form of an abstract or as part of a published lecture, review, or thesis); that it is not under consideration for publication elsewhere; that its publication has been approved by all coauthors, if any, as well as by the responsible authorities at the institute where the work has been carried out; that, if and when the manuscript is accepted for publication, the coauthors agree to automatic transfer of the copyright to the publisher; and that the manuscript will not be published elsewhere in any language without the consent of the copyright holders.

All articles published in this journal are protected by copyright, which covers the exclusive rights to reproduce and distribute the article (e.g., as offprints), as well as all translation rights. No material published in this journal may be reproduced photographically or stored on microfilm, in electronic data bases, video disks, etc., without first obtaining written permission from the publisher.

The use of general descriptive names, trade names, trademarks, etc., in this publication, even if not specifically identified, does not imply that these names are not protected by the relevant laws and regulations.

While the advice and information in this journal is believed to be true and accurate at the date of its going to press, neither the authors, the editors, nor the publisher can accept any legal responsibility for any errors or omissions that may be made. The publisher makes no warranty, express or implied, with respect to the material contained herein.

Special regulations for photocopies in the USA: Photocopies may be made for personal or in-house use beyond the limitations stipulated under Section 107 or 108 of U.S. Copyright Law, provided a fee is paid. All fees should be paid to the Copyright Clearance Center, Inc., 21 Congress Street, Salem, MA 01970, USA, stating the ISSN 0302-766X, the volume, and the first and last page numbers of each article copied. The copyright owner's consent does not include copying for general distribution, promotion, new works, or resale. In these cases, specific written permission must first be obtained from the publisher.

Contents of Volume 271

Akamine A → Mukai M
Akhter N, Kobayashi M, Hoshino T: Avian epidermis contains ATPase- and Ia-positive Langerhans-like cells 103–106
Andressen C, Blümcke I, Celio MR: Calcium-binding proteins: selective markers of nerve cells 181–208
Armbruckner L → Luciano L
Arola J, Heikkilä P, Kahri AI: Biphasic effect of ACTH on growth of rat adrenocortical cells in primary culture 169–176
Bachmann S → Kummer W
Bains HK, Bawa SR, Pabst MA, Sehgal S: Plasma membrane alterations of maturing goat (*Capra indicus*) spermatozoa: Lectin-binding and freeze-fracture study 159–168
Bass P → Luck MS
Bauer J → Dulak J
Bawa SR → Bains HK
Ben-Ami Y, Mark K von der, Franzen A, Bernard B de, Lunazzi GC, Silbermann M: Transformation of fetal secondary cartilage into embryonic bone in organ cultures of human mandibular condyles 317–322
Bernard B de → Ben-Ami Y
Bleick A → Homberg U
Blümcke I → Andressen C
Boissin J → Fuminier F
Boissin-Agasse L → Fuminier F
Boyeson MG → Luck MS
Brelje TC → Mesce KA
Burger EH → Klein-Nulend J
Burns JR → Flores JA
Burnstock G → Rennick RE
Caffé AR, Szél A, Juliusson B, Hawkins R, Veen T van: Hyperplastic neuroretinopathy and disorder of pigment epithelial cells precede accelerated retinal degeneration in the SJL/N mouse 297–307
Celio MR → Andressen C
Cepriano LM, Schreibman MP: The distribution of neuropeptide Y and dynorphin immunoreactivity in the brain and pituitary gland of the platyfish, *Xiphophorus maculatus*, from birth to sexual maturity 87–92
Chandler DE → Mozingo NM
Charmantier G → Rotllant G
Charmantier-Daures M → Rotllant G
Chetverukhin VK, Polenov AL: Ultrastructural radioautographic analysis of neurogenesis in the hypothalamus of the adult frog, *Rana temporaria*, with special reference to physiological regeneration of the preoptic nucleus. I. Ventricular zone cell proliferation 341–350
Chetverukhin VK → Polenov AL
Chiba A, Honma Y, Oka S: Immunohistochemical localization of neuropeptide Y-like substance in the brain and hypophysis of the brown hagfish, *Paramyxine atami* 289–295
Connat J-L → Rennick RE
Cronier L → Malassiné A
Culleré X → Díaz-Ruiz C
Dahl JL → Luck MS
Davidoff MS, Schulze W, Middendorff R, Holstein A-F: The Leydig cell of the human testis – a new member of the diffuse neuroendocrine system 429–439
Dekker K → Kiliaan AJ
De Kleijn D → Rotllant G
De Loof A → Verhaert P
Díaz-Ruiz C, Pérez-Tomás R, Culleré X, Domingo J: Immunohistochemical localization of transforming growth factor-α and epidermal growth factor-receptor in the mesonephros and metanephros of the chicken 3–8
Diederen JHB, Verkade P, Jansen WF, Vullings HGB: Endocytosis in flight-stimulated adipokinetic cells of *Locusta migratoria* 485–489
Döpp EA → Dulak J
Domingo J → Díaz-Ruiz C
Dulak J, Bauer J, Döpp EA, Van Rooijen N: Immune-complex-trapping cells in the spleen of the oriental fire-bellied toad, *Bombina orientalis* 155–158
Duncker H-R → Ermert L
Ermert L, Seeger W, Duncker H-R: Computer-assisted morphometry of the intracapillary leukocyte pool in the rabbit lung 469–476
Fehle G → Wrobel K-H
Ferré F → Malassiné A
Firth JA → Schulze C
Flores JA, Burns JR: Ultrastructural study of embryonic and early adult germ cells, and their support cells, in both sexes of *Xiphophorus* (Teleostei: Poeciliidae) 263–270
Forsgren S → Franzén L
Franzen A → Ben-Ami Y
Franzén L, Forsgren S, Gustafsson H, Henriksson R: Irradiation-induced effects on the innervation of rat salivary glands: Changes in enkephalin- and bombesin-like immunoreactivity in ganglionic cells and intraglandular nerve fibers 529–536
Fujimoto T → Ning G
Fujita T → Han H
Fuminier F, Sicard B, Boissin-Agasse L, Boissin J: Seasonal changes in the hypothalamic vasopressinergic system of a wild Sahelian rodent, *Taterillus petteri* 309–316
Furness JB, → McConalogue K
Furness JB → Messenger JP
Goessens G → Thiry M
Govind CK → Read AT
Green CR → Rennick RE
Groot JA → Kiliaan AJ
Gustafsson H → Franzén L
Hänze J → Kummer W
Han H, Iwanaga T, Uchiyama Y, Fujita T: Aggregation of macrophages in the tips of intestinal villi in guinea pigs: their possible role in the phagocytosis of effete epithelial cells 407–416
Hawkins R → Caffé AR
Heikkilä P → Arola J
Henriksson R → Franzén L
Hirst BH → Jepson MA
Hisada M → Sato M
Holmgren S → Karlla P
Holmgren S → Kiliaan AJ
Holstein A-F → Davidoff MS
Homberg U, Bleick A, Rathmayer W: Immunocytochemistry of GABA and glutamic acid decarboxylase in the thoracic ganglion of the crab *Eriphia spinifrons* 279–288
Honma Y → Chiba A
Hoshino T → Akhter N
Ichihara I, Kawamura H, Pelliniemi LJ: Ultrastructure and morphometry of testicular Leydig cells and the interstitial components correlated with testosterone in aging rats 241–255
Idler DR → Nagler JJ
Iwanaga T → Han H
Izard J → Oulhaj N
James PS → Jepson MA
Jansen WF → Diederen JHB
Jensen J → Karlla P
Jepson MA, Simmons NL, Savidge TC, James PS, Hirst BH: Selective binding and transcytosis of latex microspheres by rabbit intestinal M cells 399–405
Jönsson A-C → Karlla P
Jönsson A-C → Kiliaan AJ
Juliusson B → Caffé AR
Kachi T, Suzuki T, Takahashi G, Quay WB: Differences between adrenomedullary adrenaline and noradrenaline cells: quantitative electron-microscopic evaluation of their differential cellular association with supporting cells 257–261
Kahri AI → Arola J
Karlla P, Jönsson A-C, Jensen J, Holmgren S: Galanin-like immunoreactivity in extrinsic and intrinsic nerves to the gut of the Atlantic cod, *Gadus morhua*, and the effect of galanin on the smooth muscle of the gut 537–544
Katagiri C → Moriya M
Kawamura H → Ichihara I
Kiliaan AJ, Holmgren S, Jönsson A-C, Dekker K, Groot JA: Neuropeptides in the intestine of two teleost species (*Oreochromis mossambicus*, *Carassius auratus*): Localization and electrophysiological effects on the epithelium 123–134
Klein-Nulend J, Semeins CM, Veldhuijzen JP, Burger EH: Effect of mechanical stimulation on the production of soluble bone factors in cultured fetal mouse calvariae 513–517
Klukas KA → Mesce KA
Kobayashi M → Akhter N

Kobayashi S → Torihashi S
Koike H → Ning G
Krause WJ → McMenamin PG
Kujat R → Wrobel K-H
Kummer W, Bachmann S, Neuhuber WL, Hänze J, Lang RE: Tyrosine-hydroxylase-containing vagal afferent neurons in the rat nodose ganglion are independent from neuropeptide-Y-containing populations and project to esophagus and stomach 135–144
Landemore G → Oulhaj N
Lang RE → Kummer W
Lemanski LF → Osinska HE
Letaïef S-E → Oulhaj N
López J → Martínez A
Luciano L, Armbruckner L, Sewing K-F, Reale E: Isolated brush cells of the rat stomach retain their structural polarity 47–57
Luck MS, Dahl JL, Boyeson MG, Bass P: Neuroplasticity in the smooth muscle of the myenterically and extrinsically denervated rat jejunum 363–374
Lunazzi GC → Ben-Ami Y
Maeda K → Mukai M
Malassiné A, Cronier L, Mondon F, Mignot TM, Ferré F: Localization and production of immunoreactive endothelin-1 in the trophoblast of human placenta 491–497
Marie PJ → Modrowski D
Mark K von der → Ben-Ami Y
Martínez A, López J, Montuenga LM, Sesma P: Regulatory peptides in gut endocrine cells and nerves in the starfish *Marthasterias glacialis* 375–380
Martínez A, López J, Sesma P: Development of the diffuse endocrine system in the chicken proventriculus 107–113
Maslam S → Molist P
McConalogue K, Furness JB: Projections of nitric oxide synthesizing neurons in the guinea-pig colon 545–553
McMenamin PG, Krause WJ: Morphological observations on the unique paired capillaries of the opossum retina 461–468
McNeill DL → Papka RE
Menager M → Thiry M
Mesce KA, Klukas KA, Brelje TC: Improvements for the anatomical characterization of insect neurons in whole mount: the use of cyanine-derived fluorophores and laser scanning confocal microscopy 381–397
Messenger JP, Furness JB: Distribution of enteric nerve cells projecting to the superior and inferior mesenteric ganglia of the guinea-pig 333–339
Middendorff R → Davidoff MS
Mignot TM → Malassiné A
Modrowski D, Marie PJ: Cells isolated from the endosteal bone surface of adult rats express differentiated osteoblastic characteristics in vitro 499–505
Molist P, Maslam S, Velzing E, Roberts BL: The organization of cholinergic neurons in the mesencephalon of the eel, *Anguilla anguilla*, as determined by choline acetyltransferase immunohistochemistry and acetylcholinesterase enzyme histochemistry 555–566
Mondon F → Malassiné A
Montuenga LM → Martínez A
Moriya M, Katagiri C, Yagi K: Immunoelectron-microscopic localization of calmodulin and calmodulin-binding proteins in the mouse germ cells during spermatogenesis and maturation 441–451
Mozingo NM, Chandler DE: Ultrastructural changes during fertilization envelope assembly in *Lytechinus pictus* eggs revealed by quick-freeze, deep-etch electron microscopy 271–277
Müller S → Romeo HE
Mukai M, Yoshimine Y, Akamine A, Maeda K: Bone-like nodules formed in vitro by rat periodontal ligament cells 453–460
Murrin F → Nagler JJ
Nagayama T → Sato M
Nagler JJ, Murrin F, Idler DR: Localization of vitellogenin-related protein in the developing oocytes of winter flounder (*Pleuronectes americanus*) by protein A-gold immunocytochemistry 567–570
Neuhuber WL → Kummer W
Ning G, Fujimoto T, Koike H, Ogawa K: Cathodoluminescence-emitting lipid droplets in rat testis: a study by analytical color fluorescence electron microscopy 217–225
Obika M: Formation of pterinosomes and carotenoid granules in xanthophores of the teleost *Oryzias latipes* as revealed by the rapid-freezing and freeze-substitution method 81–86
Ogawa K → Ning G
Oka S → Chiba A
Osinska HE, Lemanski LF: Immunofluorescent studies on Z-line-associated protein in cultured cardiomyocytes from neonatal hamsters 59–67
Oulhaj N, Letaïef S-E, Landemore G, Izard J: Glycoconjugates with Neu5Ac-(α2,6)Gal(β1,4)GlcNAc sequences: a selective lectin-histochemical property of Kurloff cells in guinea pig thymus 69–75
Pabst MA → Bains HK
Papka RE, McNeill DL: Light- and electron-microscopic study of synaptic connections in the paracervical ganglion of the female rat: special reference to calcitonin gene-related peptide-, galanin- and tachykinin (substance P and neurokinin A)-immunoreactive nerve fibers and terminals 417–428
Pelliniemi LJ → Ichihara I
Pérez-Tomás R → Díaz-Ruiz C
Ploton D → Thiry M
Polenov AL, Chetverukhin VK: Ultrastructural radioautographic analysis of neurogenesis in the hypothalamus of the adult frog, *Rana temporaria*, with special reference to physiological regeneration of the preoptic nucleus. II. Types of neuronal cells produced 351–362
Polenov AL → Chetverukhin VK
Quay WB → Kachi T
Rack M → Schraermeyer U
Rathmayer W → Homberg U
Read AT, Govind CK: Fine structure of identified muscle fibers and their neuromuscular synapses in the limb closer muscle of the crab *Eriphia spinifrons* 23–31
Reale E → Luciano L
Rennick RE, Connat J-L, Burnstock G, Rothery S, Severs NJ, Green CR: Expression of connexin43 gap junctions between cultured vascular smooth muscle cells is dependent upon phenotype 323–332
Roberts BL → Molist P
Romeo HE, Weihe E, Müller S, Vollrath L: Protein gene product (PGP) 9.5 immunoreactivity in nerve fibres and pinealocytes of guinea-pig pineal gland: interrelationship with tyrosine-hydroxylase- and neuropeptide-Y-immunoreactive nerve fibres 477–484
Rothery S → Rennick RE
Rotllant G, De Kleijn D, Charmantier-Daures M, Charmantier G, Van Herp F: Localization of crustacean hyperglycemic hormone (CHH) and gonad-inhibiting hormone (GIH) in the eyestalk of *Homarus gammarus* larvae by immunocytochemistry and in situ hybridization 507–512
Santer RM, Symons D: Distribution of NADPH-diaphorase activity in rat paravertebral, prevertebral and pelvic sympathetic ganglia 115–121
Sasaki T, Ueno-Matsuda E: Cystein-proteinase localization in osteoclasts: An immunocytochemical study 177–179
Sato M, Nagayama T, Hisada M: Distribution of synapses on two types of ascending interneurons in the crayfish, *Procambarus clarkii* 9–21
Savidge TC → Jepson MA
Schraermeyer U, Rack M, Stieve H: Residual bodies resulting from photosensory membrane degradation are taken up by pigment cells in the eyes of the fly *Lucilia* sp. 519–528
Schreibman MP → Cepriano LM
Schulze C, Firth JA: Junctions between pericytes and the endothelium in rat myocardial capillaries: A morphometric and immunogold study 145–154
Schulze W → Davidoff MS
Scippa S, Vincentiis M de, Zierold K: Quantitative X-ray microanalysis of the morula cell of the blood of the ascidian *Halocynthia papillosa* (Stolidobranchiata) 77–80
Seeger W → Ermert L
Sehgal S → Bains HK
Semeins CM → Klein-Nulend J
Sesma P → Martínez A
Severs NJ → Rennick RE
Sewing K-F → Luciano L
Sicard B → Fuminier F
Silbermann M → Ben-Ami Y
Simmons NL → Jepson MA
Stieve H → Schraermeyer U

Suzuki T → Kachi T
Symons D → Santer RM
Szél A → Caffé AR
Takahashi G → Kachi T
Thiry M, Ploton D, Menager M, Goessens G: Ultrastructural distribution of DNA within the nucleolus of various animal cell lines or tissues revealed by terminal deoxynucleotidyl transferase 33–45
Torihashi S, Kobayashi S: Immunohistochemistry and nerve lesion experiments on the methionine-enkephalin immunopositive neurons in the small intestine of the bullfrog (*Rana catesbeiana*) 93–102
Uchiyama Y → Han H
Ueno-Matsuda E → Sasaki T
Van Herp F → Rotllant G
Van Rooijen N → Dulak J
Veen T van → Caffé AR
Veldhuijzen JP → Klein-Nulend J
Velzing E → Molist P
Verhaert P, De Loof A: Monoclonal antibody immunohistochemistry in the American cockroach identifies a novel neuropeptidergic system similar to, but distinct from this insect's (FM)RF-amide-like system 209–215
Verkade P → Diederen JHB
Vincentiis M de → Scippa S
Vollrath L → Romeo HE
Vullings HGB → Diederen JHB
Weihe E → Romeo HE
Wrobel K-H, Kujat R, Fehle G: The bovine tubouterine junction: general organization and surface morphology 227–239
Yagi K → Moriya M
Yoshimine Y → Mukai M
Zierold K → Scippa S
